## Exclude the Japanese

The question involved in the California alien land law is not for today alone. It is for generations to come, in the manner in which it is explained by Colliers Weekly. Several days ago the Bonanza urged the enactment of a federal law excluding the Japanese from entry to this country, along the lines of the present Chinese exclusion act. Practically the same theory is now advocated by Colliers, which declares:

It is not a Japanese question alone. It is a Chinese question, a Hindu question, a Korean question, a Syrian and Armenian question. It is not a matter of the United States alone. It is a Canadian question, a South African question, a New Zealand question.

It is a world question. It is a problem for all time.

It is the local outcropping of the greatest of all world problems—the riddle of the intermingling races.

It cannot be settled on the narrow basis of a treaty with Japan, nor on the local basis of poison in California, nor the feelings of the people of all the states on the Pacific coast.

It ought not to be adjusted by the people of the United States in ignorance, nor prejudice, nor with reference to political platforms, nor the demand for cheap labor.

It cannot be lightly slighted off. It is an irrepressible struggle. It will persist for ages. Its complexities and its menace are bound to become nearer and more menacing as every invention in transportation and every advance in commerce brings white men and brown men and yellow men into closer and closer contact with each other.

There are certain principles of right and wrong which enter into it. These must be studied. They should be canvassed in Washington, Tokyo, Peking, Calcutta, Delhi, Melbourne, Sydney, Cape Town, Johannesburg, New York, London. The final adjustment, if one can be arrived at, must be made with reference to these principles of right and wrong.

In urging the keeping out of Japanese from American, Colliers says:

The nation—every nation—must keep out peoples whose presence will complicate this matter of democratic solidarity. They must be kept out, not because they are inferior, but in many cases because they are so different. For these reasons California is right in her effort to keep out the Japanese. For similar reasons the Japanese are right in all the laws they may have enacted, or may enact, to prevent the domestication of large numbers of Americans there. They can vote us out of their club with perfect propriety. We can and must vote them out of our club. They are not clubbable with the great masses of the greatest Caucasian club in the world, the United States.

The Japanese are not pioneers. If they were they could find a great deal of new land in the northern island of their own empire, in Sakhalin and in Manchuria. But they are not pioneers. They prefer tense competition with men in settled countries to the competition with nature in new lands. So they like to emigrate to establish societies, like that of California. In these societies they can compete successfully with anyone. Their presence here, therefore, sets up an economic strife which is emphasized and embittered by their racial dissimilarity to us. If they came here only as they became enamored of the American people, the American flag, and the Caucasian Civilization, we might say to all: "Welcome."

But they do not so come. They do not like us any better than we like them. They do not understand us any better than we understand them. They cling to whatever differences there may be between their moral standard and ours. They see the many respects in which they are our superiors, and fail to understand or appreciate the many respects in which we are their superiors. They do not mix. They are hurled into our midst like javelins by the explosive force of their poverty. This is as fundamental an objection to their domestication among us as their marked difference in looks.

Their presence among us in large numbers would raise a race issue far worse than the negro problem. For while the negro and the white have failed to cooperate in working out our problem of democracy, while we have great difficulty in being just to the negro, and while the negro problem is recognized as our greatest one, it would be worse if the negroes were Japanese. For the negroes have no home government to which they can appeal—a government armed and inspired with the fine race pride of the Japanese. If Santo Domingo and Hayti contained fifty millions of well organized negroes, our present race question would be one of war.

We must not have war with Japan or China or a freed and independent Hindustan. Therefore we must settle this matter now before it is too late. We must settle it now on the basis of our right to exclude any peoples whom we do not think we can take into our work of perfecting democracy. We must settle it before an alien nation is established in our midst—a nation of marked people, proud of their race.

and ready to appeal to their ancient and powerful empire for aid in every quarrel with us. Half a million Japanese in this country would enable us in war with Japan within half a decade. Let us stop the influx while the numbers are small and their interests still capable of being adjusted.

## INDIANS THROW HUGE ROCKS AT WARDEN'S AUTO

CARSON PAPERS HEAR OF AN OUTBREAK AMONG REDSKINS AT THE CAPITAL.

Notwithstanding the presence of the state police at Carson, an Indian outbreak is feared in that city, according to the Carson News. It is not known whether the reservists will be called to quell the trouble, should an outbreak occur. The following from the News explains the situation:

Warden Dickerson of the state prison with his wife and children accompanied by Mr. and Mrs. Jas. Finch were assaulted recently when coming from the prison farm, by two Indians. The auto was speeding along at a fair rate when the Indians who were at the side of the road commenced throwing rocks at the

## ATTENTION MOTHERS!

If You Have or Know of a Delicate Child Read This Letter.

"My little daughter, Louise, age 9 years, has always been delicate, anemic, and no appetite and seemed listless, and we could not seem to find anything that would help her, until we were advised to give her Vinol. She started taking it six weeks ago and inside of two weeks she showed a marked improvement both in appetite, vim and looks. I continued giving it to her, and words fail to express my gratitude, and faith in Vinol both as a blood maker and body builder. As my child was an anemic for so long makes the reason all the stronger for me to recommend it to others in similar condition." George E. Munro, Brooklyn, N. Y.

Vinol restores health and strength in conditions like this because in a natural manner, it increases the appetite, tones up the digestive organs, enriches the blood and strengthens every organ of the body.

Every bottle of Vinol is guaranteed to give satisfaction or money refunded. Miners Drug Store, Inc., Tonopah, Nev.
